The first semester begins in September and the second in January. Those who have been granted approval to undertake postgraduate research studies or such other studies as may be prescribed by the Head of the Department concerned are normally permitted to register on the first day of any calendar month during a year.

E. COURSE SELECTION AND EXAMINATIONS

Course Selection
Visiting students should select courses according to the regulations, procedures, and rules being laid down from time to time by the Faculty and the Department concerned. The number of courses selected should not normally exceed those offered to regular students of the University. Visiting students undertaking postgraduate research studies or other kinds of approved studies should participate in academic activities as prescribed by the Department Heads, or the supervisors concerned, if supervisors have been appointed. More detailed information on the courses offered by the University is available at <http://www.hku.hk/pubunit/dr.html>

Visiting students may be admitted to read the Diploma / Certificate course in Chinese Language offered by the School of Chinese in the Faculty of Arts if they do not intend to attend these courses for the full duration. Other than these courses, all courses offered by the School of Chinese are taught in Chinese and are designed for students whose first language is Chinese. Candidates must be fully proficient in both written and spoken Chinese if they wish to study courses in this School.

Coursework and Examinations
Applicants who wish to participate in coursework and / or sit University examinations or class tests should indicate this clearly in their applications for admission. A request for permission to participate in coursework and / or sit examinations or class tests shall not normally be approved unless it is made at the time of admission.

Subject to approval from the Board of the Faculty or the committee concerned, a visiting student may sit University examinations at time specified in the degree regulations or syllabuses. No special arrangements will be made for a visiting student to sit University examinations at other times. For many courses of study, examinations are conducted at the end of each semester, in December and May. However, as the period of examination may vary depending on the curriculum in which a course of study is offered, candidates should find out from the University in advance the examination period for their intended courses of study to ensure that they are able to attend the examinations.

F. CREDIT TRANSFER AND TRANSCRIPT

Transfer of Credit to Home Institution
Applicants who are current students of other universities and who wish to seek credit transfer for the work done as visiting students of this University towards the qualification for which they are registered in their own university should produce evidence that their home university has approved the proposed courses of study or research project.

Transcript and Certificate of Attendance
Visiting students who have participated in the coursework and / or taken the examinations or class tests of their courses of study may apply for a transcript of their academic record (which will give information on the courses attended and their performance in examinations and / or class tests) on completion of their studies in the University. A visiting student who has not participated in any coursework and examinations / class tests may apply for a certificate of attendance. Application form for transcript can be downloaded at <http://www.ase.hku.hk/asoffice> or obtained from the Academic Services Office.
G. FACILITIES AND ACCOMMODATION

Visiting students generally have access to all the facilities provided for regular students, including health service, student counselling, physical education and recreation facilities and a Students’ Union to which a large number of clubs and societies are affiliated.

The University will try to assist applicants from overseas in finding accommodation. Visiting students may apply to live in one of the University’s halls of residence; however, accommodation in these halls of residence is limited. Private housing in Hong Kong is extremely expensive and difficult to obtain, and it is in the applicants’ own interests to ensure that suitable accommodation is available in Hong Kong before they arrive.
