

**THE UNIVERSITY OF HONG KONG**  
**School of Chinese Medicine**  
**Master of Chinese Medicine (MChinMed) (part-time)**  
**\*Streams offered: Gynaecology and Acupuncture and Moxibustion**  
**(for 19/20 admission)**

**A. Programme Overview**

Since the launch of the part-time taught Master's degree programmes in 2004, there has been a gradual change in the demand for clinical services of Chinese Medicine and hence emergence of new training needs for Chinese Medicine practitioners. To align with the Government's pragmatic approach in promoting the development of Chinese Medicine, it is essential to introduce specialized training of specific streams in postgraduate studies of Chinese Medicine so as to maintain the vibrancy of the profession and sustain its growth in the long-run. In this connection, the School will launch the new MChinMed programme with different streams of specialty, i.e. Oncology/Gynaecology\*/Acupuncture and Moxibustion\* (*\*for 19/20 admission*) which serves to meet the advanced training needs among Chinese Medicine practitioners arising from increasing public expectation on Chinese Medicine services.

The curriculum shall normally extend over **two academic years of part-time studies** and it will tentatively commence by September/October 2019. It bears a total of 69 credits regardless of the stream, and it offers two pathways, namely *project-based* and *practice-based* which aim to offer students with a higher degree of flexibility and cater for different students' needs. The structure of the new curriculum is summarized below:

<b>Year 1</b> (21 credits)	<b>Common courses</b> Research Methodology in Chinese Medicine (3 credits) Evidence-based Medicine (3 credits) Classical Literature of Chinese Medicine (9 credits) Seminars on progress of modern research of Chinese Medicine (6 credits)	
<b>Year 1</b> <b>Core courses</b> (12 credits)	<b>Core courses of chosen stream</b> (Gynaecology/Acupuncture and Moxibustion)	
<b>Year 2</b> (36 credits)	<b>Option A</b> ( <i>project-based</i> )	<b>Option B</b> ( <i>practice-based</i> )
	<b>Clinical attachment of chosen stream</b> (Gynaecology/Acupuncture and Moxibustion) (6 credits) <b>Advanced clinical attachment I</b> <b>of chosen stream (Gynaecology/Acupuncture and Moxibustion)</b> (6 credits)	
	- <b>Individual Project</b> (24 credits)	- <b>Advanced clinical attachment II</b> <b>of chosen stream</b> (Gynaecology/Acupuncture and Moxibustion) (18 credits) - <b>Clinical Report (6 credits)</b>
<b>Total</b>	<b>69 credits</b>	

**B. Eligibility**

To be eligible for admission to the curriculum leading to the degree of Master of Chinese Medicine (*regardless of the streams*), a candidate shall:

- (i) comply with the General Regulations but with a waiver of Regulation G2(b);
- (ii) comply with the Regulations for Taught Postgraduate Curricula but with a waiver of Regulation TPG2(d); and
- (iii) hold the degree of Bachelor of Traditional Chinese Medicine/Bachelor of Chinese Medicine of this University or a qualification of equivalent standard from another university or comparable institution accepted for this purpose; or a recognized Bachelor's degree in medicine, dentistry, physiotherapy or other healthcare related programme and a recognized diploma in Chinese Medicine from a university or comparable institution accepted for this purpose (*for candidates opting for the stream of Gynaecology*); or
- (iv) hold the degree of Bachelor of Traditional Chinese Medicine or Bachelor of Chinese Medicine of this University or a qualification of equivalent standard from another university or comparable institution accepted for this purpose; or a recognized

Bachelor's degree in medicine, dentistry, physiotherapy or other healthcare related programme and a recognized diploma in acupuncture from a university or comparable institution accepted for this purpose (*for candidates opting for the stream of Acupuncture and Moxibustion*).

### C. Programme learning outcomes

After completion of the programme in different streams, students should be able to:

- demonstrate competence in clinical diagnosis in terms of interpretation of diagnosis results, adoption of different effective means and prescription of different herbal medicines for treating serious illnesses of different streams of Oncology and Gynaecology; and master the latest knowledge, skills and research methodologies in the profession of Acupuncture and Moxibustion;
- demonstrate the capacity in interpreting classical literatures effectively and apply the essence of diagnosis of illnesses in different streams; keep abreast of the research development of the discipline;
- demonstrate independent thinking and innovative ability, and be capable of raising constructive academic queries;
- conduct research on leading-edge topics and contribute to the betterment of healthcare in the respective stream by enhancing the effectiveness of applying different therapeutic methods of Chinese Medicine;
- demonstrate an advanced understanding and extensive knowledge in the field of acupuncture and technical skills, integrate these knowledge with modern scientific skills and enhance one's clinical diagnostic capability;
- be highly competent in prescribing effective treatment for different diseases or illnesses from the perspective of Chinese Medicine, including prescription of Chinese herbal drugs and applying other means such as acupuncture and moxibustion where appropriate;
