

THE UNIVERSITY OF HONG KONG
Department of Real Estate and Construction
Division of Architectural Conservation Programmes

Postgraduate Diploma in Conservation / Master of Science in Conservation

1. The Architectural Conservation Programmes (ACP) offers a foundation programme (one-year part-time) leading to a Postgraduate Diploma in Conservation and an advanced programme (two-year part-time or one-year full-time) leading to the degree of Master of Science in Conservation.
2. To be eligible for admission to the programmes, a candidate shall satisfy both the University Admissions Requirements and the Programme Specific Requirements¹.
 - (a) shall comply with the [General Regulations](#);
 - (b) shall hold a Bachelor's degree with honours of this University or a qualification of equivalent standard from this University or another comparable institution accepted for this purpose;
 - (c) for a candidate who is seeking admission on the basis of a qualification from a university or comparable institution outside Hong Kong of which the language of teaching and/or examination is not English, shall satisfy the University English language requirement applicable to high degrees as prescribed under General Regulation G2(b).
 - (d) satisfy the examiners in a qualifying examination if required.

An application for exemption from the above requirements shall be considered on a case by case basis.

3. Applicants may choose to apply for one of the following:
 - (i) the one-year part-time PDip(Conservation) programme (for students with residency status in Hong Kong and Macau only);
 - (ii) the two-year part-time MSc(Conservation) programme (for students with residency status in Hong Kong and Macau only);
 - (iii) the one-year full-time MSc(Conservation) programme (for students from Hong Kong, Macau, Mainland China and overseas).

Please note that applicants who are already registered with an undergraduate or postgraduate programme in this university or other tertiary institutes will **NOT** be eligible for any of the above programmes.

4. Successful applicants for the part-time PDip(Conservation) programme may be permitted to transfer to the part-time MSc(Conservation) programme before the award of the diploma, and they will continue directly into the second year of the part-time MSc(Conservation) programme upon successful completion of the part-time PDip(Conservation) curriculum.

5. To be eligible for admission to the curriculum leading to the PDip(Conservation) and MSc(Conservation), an applicant must satisfy the following requirements:
 - (i) hold a Bachelor's degree of this University or an equivalent qualification accepted by this University;
 - (ii) demonstrate a good command of spoken and written English.

Please note that applicants from a university or a comparable institution outside Hong Kong where the language of teaching and/or examination is not English must fulfill The University of Hong Kong's **English language proficiency requirements for postgraduate admission** (see: "General Qualifications for Admissions" at <http://www.aal.hku.hk/tpg/university-entrance-requirements>).

¹ The programme's curriculum, regulations and syllabuses are subject to the Senate's approval.

6. Applications for a taught postgraduate programme can be downloaded and submitted via our on-line application system at <http://www.hku.hk/tpg>.
7. This is a credit-based programme. Postgraduate Diploma in Conservation graduates are required to take 45 credits. Master of Science in Conservation graduates are required to take 90 credits.
8. The closing date for the September 2019 intake for local applications is extended to **12:00nn, 31 May 2019**. **Application for overseas applicants has been closed**. As time is needed to process the applications, applicants are requested **NOT** to make phone enquiry of their applications before 30 April 2019. Applicants shall be notified of their application results no later than 1 June 2019. If after this date, notification has not been received, please contact the Faculty Office – Ms Heidi Leung at 2219 4408.

THE UNIVERSITY OF HONG KONG
Department of Real Estate and Construction
Division of Architectural Conservation Programmes

Postgraduate Diploma in Conservation [PDip(Conservation)]
(Self-funded programme)

Conservation is now recognized worldwide as an important component of sustainable development, particularly in world-class cities undergoing advanced development. There is increasing demand and scope for research and practice in conservation because cities around the world have recognized the need for more rigorous professional requirements based on international best-practice standards specified in international charters and conventions.

The Architectural Conservation Programmes (ACP) was established in 2000 as a self-funded postgraduate programme in the Faculty of Architecture to meet the growing professional need for integrating the discipline of conservation in the fields of architecture, construction management, facilities management, landscape architecture, real estate management, surveying, and urban planning and design.

ACP has become internationally recognized as a leading academic programme for training professionals in conservation through its active research and educational collaborations with universities, government agencies, and intergovernmental organizations that set international standards in conservation best-practice, such as UNESCO, ICOMOS and ICCROM. The programme receives students from both the private practice and the civil service in Hong Kong, Mainland China and overseas.

ACP offers a foundation programme (one-year part-time) leading to a Postgraduate Diploma in Conservation and an advanced programme (two-year part-time or one-year full-time) leading to the degree of Master of Science in Conservation. Students who have successfully completed the Postgraduate Diploma foundation programme may apply for transfer to the second year of the Master Degree advanced programme (and they will not be awarded the diploma). Students residing in Hong Kong and Macau may opt for either the part-time or the full-time programme, while those from Mainland China and overseas countries may only apply for full-time studies.

Fee Structure

Tuition Fee : HK\$93,000 per year* (Subject to final approval by the University)

* The composition fee is payable in two instalments. Please note the composition fee does not cover travel expenses for field study trips within and outside Hong Kong, health insurance, and access to HKU's sports facilities.
