Applications are invited for admission in September 2021 to the Master of Science in Conservation. To be eligible for admission to the programme, a candidate shall satisfy both the University Admissions Requirements and the Programme Specific Requirements.

(a) shall comply with the General Regulations;
(b) shall hold a Bachelor’s degree with honours of this University or a qualification of equivalent standard from this University or another comparable institution accepted for this purpose;
(c) for a candidate who is seeking admission on the basis of a qualification from a university or comparable institution outside Hong Kong of which the language of teaching and/or examination is not English, shall satisfy the University English language requirement applicable to high degrees as prescribed under General Regulation G2(b).
(d) satisfy the examiners in a qualifying examination if required.

Please note that applicants who are already registered with an undergraduate or postgraduate programme in this university or other tertiary institutes will NOT be eligible for the programme.

To be eligible for admission to the curriculum leading to the MSc(Conservation), an applicant must satisfy the following requirements:
(i) hold a Bachelor’s degree of this University or an equivalent qualification accepted by this University;
(ii) demonstrate a good command of spoken and written English.

Please note that applicants from a university or a comparable institution outside Hong Kong where the language of teaching and/or examination is not English must fulfill The University of Hong Kong’s English language proficiency requirements for postgraduate admission (see: “General Qualifications for Admissions” at http://www.hku.hk/tpg/university-entrance-requirements).

Applications for a taught postgraduate programme should be submitted via our on-line application system at http://www.hku.hk/tpg. After submission of an online application, you are required to post the supporting documents directly to the Faculty of Architecture. Please refer to the “Supporting Documents” for details.

This is a credit-based programme. Master of Science in Conservation graduates are required to take 99 credits.

The closing date for application is 12:00 noon (GMT+8), March 26, 2021 (Friday). As time is needed to process the applications, applicants are requested NOT to make phone enquiry of their applications before 30 April 2021. Applicants shall be notified of their application results no later than 30 June 2021. If after this date, notification has not been received, please contact the Faculty Office – Ms Heidi Leung at 3917 4408.

December 2020

1 The programme’s curriculum, regulations and syllabuses are subject to the Senate’s approval.
THE UNIVERSITY OF HONG KONG
Division of Landscape Architecture

Master of Science in Conservation [MSc(Conservation)]
(Self-funded programme)

Conservation is now recognized worldwide as an important component of sustainable development, particularly in world-class cities undergoing advanced development. There is increasing demand and scope for research and practice in conservation because cities around the world have recognized the need for more rigorous professional requirements based on international best-practice standards specified in international charters and conventions.

The Master of Science in Conservation was established in 2000 as a self-funded postgraduate programme in the Faculty of Architecture to meet the growing professional need for integrating the discipline of conservation in the fields of architecture, construction management, facilities management, landscape architecture, real estate management, surveying, and urban planning and design.

The programme has since become internationally recognized as a leading academic programme for training professionals in conservation through its active research and educational collaborations with universities, government agencies, and intergovernmental organizations that set international standards in conservation best practice, such as UNESCO, ICOMOS and ICCROM. The programme receives students from both the private practice and the civil service in Hong Kong, Mainland China and overseas.

Fee Structure

Tuition Fee: HK$204,600* for the full-time programme
(Subject to final approval by the University)

* The programme fee is payable in two instalments every year. Please note the programme fee does not cover travel expenses for field study trips within and outside Hong Kong, health insurance, and access to HKU’s sports facilities.
